REQUEST: The availability of adjacent and virtual collocation.

RESPONSE: BellSouth has not received a request for adjacent collocation at the Brentwood Central Office and as a result has not determined the availability of space for this type of collocation. If such a request is received, BellSouth will be glad to determine the availability of space for adjacent collocation based on the specific request.

As a result of a request to augment an existing virtual collocation arrangement, BellSouth has determined that two applications for virtual collocation had been approved and put in service in the 1996-to-1998 time frame. Those two arrangements are now being reflected in the response to Items 3 and 4.
